On time.

On budget.

On quality.

In transparency.

Our Departments

Dirox is proud to offer you a line of services that covers all your needs in the Digital Industry. From concept & design to coding and deployment, find all the right advice and skills to succeed.

Dirox Studio

Digital Solutions Maker

- **Mission Critical Application**

Build mission applications to improve operational efficiencies, customer-centric, integration of complex systems, and product applications

- **Mobile Application**

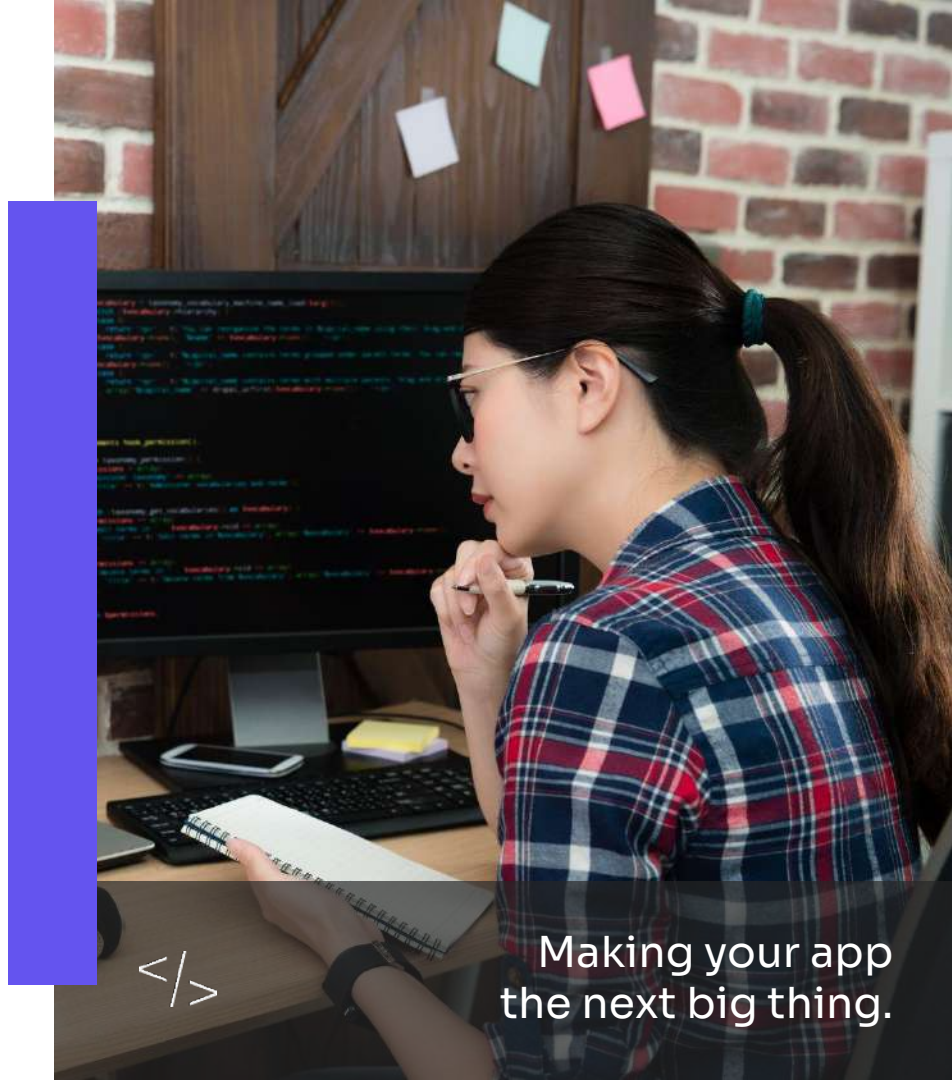

Use our expertise in Kotlin (Android) and Swift (IOs) for native mobile applications, and Native Script and Flutter for cross mobile platform.

- **Unity Games**

Bring your game ideas to life, monetize them to drive sustainable revenue, create unforgettable social experiences and connect communities.

- **Web Application**

Build a web platform with the best standards in terms of code optimization, information architecture, user pathways and responsiveness.

Making your app
the next big thing.

Dirox Labs

Innovation Partner

● Blockchain

Power your Digital Product with Blockchain technologies for unparalleled security and traceability.

● A.I & Machine Learning

Use Artificial Intelligence and Machine Learning to help you grow, become more efficient, and find new ways to delight your customers.

● Internet of Things

Create seamless communication between people, processes and objects with disruptive technologies.

● Virtual & Augmented Reality

Explore a world of possibilities and offer your customers one-of-a-kind environments & interactions for truly immersive experiences.

Keeping you one
step ahead.

Dirox Insights

Success Strategists

- **Branding & Marketing**

We create your brand identity and build your marketing strategy to reach your target audience.

- **Business Digital Transformation**

We optimize your company structure and processes with the implementation of digital tools designed to save you time and money.

- **UX / UI**

We design ideal layouts for your Digital Products and enhance your customer's experience.

- **Technology on Demand**

We mobilize our CTOs & Technical Architects expertise and vision to help you take the right strategic decisions.

A little advice can make a big difference ;)

Dirox Care

Peace of Mind Experts

- **Hosting & Cloud Services**

Find the right solution for the deployment of your digital products online with the advice of our WebOps specialists.

- **Cybersecurity**

Challenge the resilience of your digital products and infrastructures to make sure they are reliable under all circumstances.

- **Infrastructure Maintenance & Support**

Avoid downtime and ensure the stability of your digital infrastructure with the help of our IT technicians.

- **Users & Client Support**

Help your clients get where they need and improve the operational effectiveness of your applications.

When failure
is not an option.

Our Technologies

With DevOps proficient in more than 25 programming languages and WebOps certified by the best tech platforms, Dirox offers a wide range of solutions for your digital challenges.

Working with us

Strong of 20 years of experience, Dirox offers its clients a smooth journey throughout the life-cycle of their project, with a dedicated Scrum Master in command of a tailor-made team.

Our men & women **on your** team

Dirox finds great pride in keeping a diverse and international work environment of passionate professionals:

- 70 Coders
- 20 Project Managers & Consultants
- 15 Quality Control Experts
- 10 DevOps & Security Specialists

Phase 0: Consultancy

0. Business Consultancy

Maximize revenue or reduce costs. We help translate your business needs into digital solutions.

Phase 1: Discovery

1. Project Analysis

Receive our 1st offer within 5 days after our 1st meeting.

2. Specifications

We create the DNA of your project (2 to 15 days).

Phase 2: Execution

3. Project Launch

Our dedicated teams start their work and we keep you updated at all times.

4. Sprints

Project is divided in two weeks sprints -iterations) with to-dos and backlogs.

5. Project Delivery

Receive your product tested & documented, ready for launch!

Collaboration Models

Flexible organizational structure

Fixed Price PROJECT

We define with you a detailed scope of work based on your requirements and a fixed timeline, and deliver that exact scope for a fixed price.

Applications

- Discovery phases
- Small developments
- UX / UI designs
- Security audits & I.T support

Time & MATERIAL

Our “à la carte” offer, where you get access to the resources you need freely, just when you need them, and for the duration you want, at our standard rates.

Applications

- Business consulting
- MVP development
- Teams of < 20 developers

Build, Operate & TRANSFER

We build and manage tailor-made legal entities operating for you, satisfying your every need (team composition, H.R, accounting...). When the time is right, we transfer the department to your company.

Applications

- New department creation
- Market testing
- Teams of > 20 developers.

Our clients

Whatever your location, whatever your size, whatever your industry, whatever your needs, Dirox is on board with you from beginning to end.

“I have been working with Dirox since 2012. Since then, I have been stunned by their efficiency, professionalism and ability to provide constructive feedback.”

Alexis Delloye, Private Reporting (AUS)

“Recommend Dirox for affordable and reliable creation of quality software: experienced, trusted, passionate, innovative, good track record.”

Adam LG Ring, Food.me (AUS)

“We are very happy to keep working with Dirox and to recommend them to other organizations, especially related to web & mobile apps business.”

Julien Mittelberg, Bandsintown (USA)

“Professional, timely, and customer focused, Dirox is an exceptionally valuable resource to the Mobile Giving Foundation, and has been for more than the past two years”

Katherine Winchester, MGF (USA)

“Overall, it's been a great process working with Dirox - We are glad to have Dirox as our development partner.”

Cassandra Poon, Ksubaka (SGP)

“I was happy to work with a team that cared about our business results, and adapted very quickly to changing conditions around our company.”

Raphaël Mazoyer, Evasion (S. KOREA)

Portfolio

For every project, our only goal is the satisfaction of your customers. We provide user-friendly experiences on scalable and reliable apps.

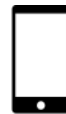

LogChain is an ecosystem that helps the collaboration of all entities of a supply chain. It allows movement of cargo on a supply chain in a digital manner and using blockchain technology.

UX / UI

BLOCKCHAIN

MOBILE

PC

01/

Provide a single source of truth for everyone to access

02/

Track good's origins and location

03/

Ensure greater security and prevent modifying information using Blockchain

04/

Provide 1 platform for storing and transferring Smart contract

Bandsintown

Webscraping and Data Entry offering real-time concert info worldwide

Bandsintown is a web platform and a mobile application to connect 500 thousand artists and 3,800 million music fans globally. It delivers fresh concert information scrapped from over 400 data sources to users. It was selected as one of the 'Best Applications of 2014' by Business Insiders.

01/

Collect data from over 400 sources

03/

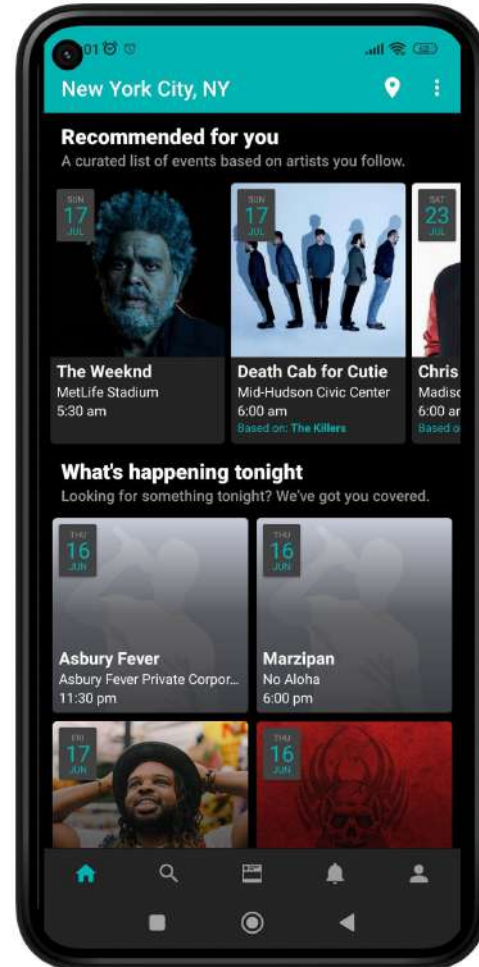

Search information about artists & shows

02/

Deliver customized concert information

04/

Book tickets to events worldwide

DATA SCRAPING

MOBILE

PC

TanaLink

Agrotech Industrial
IoT solution

Tanalink links planters with their large expanse of land by constantly capturing actionable: workers, trees, machinery, soil, wildlife, intrusions. Thanks to a LoraWan based solution, Dirox developed an Internet of Things solution that doesn't require Internet!

01/

Represent near-real time data of tracking harvesting, trees treatment, wildlife presence by visualization map

03/

Send immediate S.O.S in case of emergency situations

02/

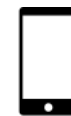

Transmit data to server without internet

04/

Customize report for easier management and optimize gathering path

I.O.T

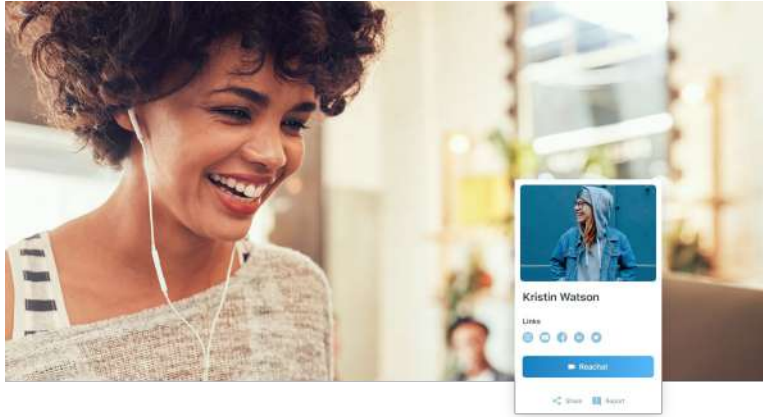

MOBILE

PC

Reachat

Reachat connects fans and idols

01/

Browse & search celebrity database with filters

02/

Book appointments

03/

Live video-calls with idols

04/

Transfer money to verified accounts

Reachat provides a safe and trusted platform for fans to seamlessly connect with their idols and for idols to monetize their celebrity in a win-win environment.

Dirox is proud to offer you a line of services that covers all your needs in the Digital Industry. From concept & design to coding and deployment, find all the right advice and skills to succeed.

An aerial photograph of London at dusk, showing the River Thames, the Tower Bridge, and the Shard. The sky is a deep blue, and the city lights are beginning to glow. A large, faint, light blue graphic of a curly brace is overlaid on the left side of the image, framing the text.

Our clients

Whatever your location, whatever your size, whatever your industry, whatever your needs, Dirox is on board with you from beginning to end.

An aerial photograph of Paris, France, featuring the Eiffel Tower prominently in the center-left. The city's dense urban landscape, including the Sacré-Cœur and the golden dome of St. Étienne du Mont, is visible. A large, semi-transparent, stylized letter 'D' is overlaid on the left side of the image. The sky is a soft, hazy blue, suggesting a clear day.

Our clients

Whatever your location, whatever your size, whatever your industry, whatever your needs, Dirox is on board with you from beginning to end.

An aerial view of the Tokyo skyline at dusk. The Tokyo Skytree tower is the central focus, illuminated with lights. The sky is a mix of blue and pinkish-purple. A large, light blue, stylized graphic element resembling a bracket or a large 'D' is overlaid on the image, framing the text on the right.

Our clients

Whatever your location, whatever your size, whatever your industry, whatever your needs, Dirox is on board with you from beginning to end.
